BLAINE MILLER

bmiller@cenode.com ◆ 661.616.8654

SUMMARY

Industry-certified professional with six years in advanced technologies improving web-user experiences by definitive expertise in conceiving and implementing internet solutions that elevate brand image, generate revenues, and provide the basis for cost-effective content management and expansion. Acknowledged throughout career as a service-centric and process-driven leader and trouble-shooter while composing clean code and concise documentation that fully de- tails software development life cycles from development environment to production. Expertise in capitalizing on the advantages of web and streaming media technologies, creating usable and sale-able products, steering projects at mi- cro and macro levels, and delivering to specification, on time and on budget.
